BOTH WILSON AND HUGHES CLAIM VICTORY

PEACE IS MUCH FURTHER OFF THAN 2 YEARS. INDICATION

United Press Head On Return To N. Y. From Europe Tells War Situation

ALLIES IN WEST NOT YET AT FULL POWER

Germany's Peace Aim Based On Belief She Is Nearer Victory Than Entente

[After four months spent in Europe and South America, Roy Howard, president of the United Press Association, today returned to New York. Abroad he met leaders in England, France, Germany, etc., and obtained their personal views. He is one of the few neutrals who have been permitted to visit all the belligerent countries in the past year.]

BY ROY HOWARD
NEW YORK, Nov. 4.—Nowhere in England, France or Germany is there the slightest evidence yet of the approach of the end of the war, and in no country is there any indication that the struggle will be terminated within two years. There are innumerable indications that the end is much farther off.

Lord Northcliffe, who more often probably than any other forecasts the war's developments correctly, is urging the British not to calculate on peace within five years.

Germany wants peace and admittedly wants it badly. The French and British public misunderstand and misconstrue this. The fact that Germany wants peace is not because she believes herself defeated but believes herself nearer to victory than any of the belligerents have ever come.

The allies insist on a peace which will result in the breaking up of Germany and the breaking up of not only her militarism but her commercial activities as well.

New Ally Smashes Due
Although pushing their newest offensive on the Somme with great vigor, the British land forces have not yet attained their full vigor and will not until next summer.

The idea current in Germany that France is too nearly exhausted for conducting further dangerous offensives is unwarranted optimism. Actual figures show that in the Somme drive where the French merely protected the British wing, they have actually taken more ground and prisoners than the British. This is indicative of what the French have in reserve, as is also their new thrust at Verdun.

On the other hand, the idea current in allied countries that Germany sees either defeat or exhaustion as a near menace is quite without justification. 18 Months Work Changes
The past eighteen months have worked great changes in the belligerent capitals. Paris has changed the least. During the interval a brighter and gayer shade has brought Paris nearer normal, even though the war still is the all-engrossing idea.

Berlin has become almost sombre. A rather noisy and exaggerated confidence has given place to a truly grim determination. The food situation if it is not working that havoc on German stomachs that the allies like to believe is having its effect on the German nerves. The difficulty is not so much a scarcity of food as it is soaring of prices. There is a monotony in diet. Everywhere the questions are asked, "When is peace coming?" But nowhere is there any evidence of fear or a voice of dissatisfaction with the government or the army.

The peace openly striven for by Germany is far different from the peace talked in the home. Also it is a very different peace than has ever been talked in Paris.

Britain Transformed
London has undergone the greatest transformation. In the fall of 1914 Englishmen were talking glibly. "Business is as usual," they said. There is no business routine in Britain now except that of war.

The British nation after two years of stumbling and blundering, is finally into the war clear up to John Bull's eyebrows.

Involved in the situation are developing two powerful factors which combined seem to blight all possibilities of an early peace. One is England's determination to fight until the allies can dictate peace. On the other hand, few people in England have guessed at and appreciated Germany's defensive strength and have a false impression that Germany's peace desires are dictated by fear.

PUT YOUR VOTE WHERE IT WILL COUNT

The Congressional situation is now squarely before us, and there is no manner of use in any voter blinding himself to the facts in the case. Four names will be upon the ballot next Tuesday. Those names will appear in the following order:

Marcus W. Robbins, Socialist.
James S. Edwards, Prohibition.
Robert C. Harbison, Republican.
William Kettner, Democrat.

Robbins appeals for votes merely as a Socialist. He is not expecting to get and is not playing for votes from any other party.

Edwards is strictly a party Prohibitionist. He is not a Republican. He is not a Democrat, and he is not a Socialist. More particularly, he is not a Republican, a dry Republican, a protective tariff Republican or any other kind of a Republican. Yet, because he is dry, he thinks he is entitled to votes from other parties.

He has made a special effort to get the vote of dry Republicans. Under different circumstances he might be entitled to the dry votes of other parties, but in this campaign he is not.

His campaign has been managed by men who do not live in this Eleventh Congressional District, men who possibly are not half as much interested in who represents this district in Washington as they are in reporting to the Prohibition Party National Committee that they shoved up the Prohibition Party vote over what it was two years ago. The Riverside Press, one of the most conservative newspapers in the state, edited by E. P. Clarke, who recently attended the Methodist Conference here as a layman representative, has editorially charged those managers with unfairness and dishonesty in their campaign utterances.

Those managers appeared in the Register office that they had \$10,000 to spend in this district, this being one of six districts in the United States to which the National Prohibition Party Committee had appropriated that much money for campaign purposes, not to help make California dry, mind you, but to make a Prohibition Party Congressional showing.

Suppose, Mr. Voter, that you were delegated with the job of making the greatest possible showing for a Prohibition Party candidate. Suppose your Prohibition Party candidate had two opponents, a Democrat, supported by the wets, and a dry Republican, whose record entitled him to the support of the dries. In which camp would you be likely to find the greatest number of votes for your Prohibition Party candidate?

Doubtless this question came to the Edwards managers. They must have known that they had no chance of getting any of the wet votes away from Kettner. If they figured that they could seize more votes by misrepresenting Harbison's dry record than they could by converting Kettner wets, they undoubtedly figured aright.

However they figured, Harbison's dry record was attacked, and the assault was promptly encouraged by the wet forces who needed no one to hammer their heads to point out to them that the faster Edwards traveled the better were Kettner's chances. Over at Anaheim the saloon politicians adroitly furthered the Edwards campaign, while the San Bernardino Index, the wettest paper in the district, came out for Edwards, the Prohibition Party nominee. It is a queer political spectacle—wets aiding a Prohibitionist—yet it was a perfectly logical and a perfectly sound political move on the part of the wet forces. They knew what they wanted—Kettner—and they knew where and how they could do him the most good, for the wets never fail to recognize the fact that the man who gets the most votes is the man who is elected. They knew and still know that if Harbison does not get as many votes as Kettner, Kettner, not Edwards, will win.

Harbison's true record and standing has been established with evidence that would convince any honest jury. It has been shown that Harbison's record was misrepresented.

How any reasonable, sane man could read the statement signed by the president and secretary of the San Bernardino dry committee of 1916, the judge of the superior court, ministers of the gospel, the mayor, officers of the W. C. T. U., president of the Y. W. C. A., secretary of the Y. M. C. A., and other prominent, active dry workers of San Bernardino county and continue to doubt that Harbison had stood otherwise than square-toed against the liquor traffic for twenty years is beyond comprehension. On top of that, came the endorsement of the Anti-Saloon League, with the advice to dry workers that they vote for Harbison. Right here at home comes a statement from the most active leaders of the dry forces that to vote for national prohibition this year, people of this district must vote for Harbison. That statement is signed by A. C. Black, W. B. Tedford, A. J. Padgham, N. P. Tedford, S. M. Davis, E. E. Keech, J. M. Gunnnett, J. F. Kinley, O. H. Dunkin, T. D. Knights, Geo. L. Wright, G. P. Hill, Geo. S. Heil, J. H. Scott, J. A. Cranston, C. A. Miller and Will O'Brien, men whose integrity and faithfulness to the cause of prohibition cannot be questioned by any man, not even by a campaign manager seeking votes.

With an able, conscientious man like Harbison as their nominee for Congress, there is no more reason why Republicans should vote for Edwards for Congress than there is why they should vote for Hanly for President.

This district is normally dry by 12,000. If the Edwards propaganda draws away enough dry Republican votes from Harbison to Edwards, Kettner will be elected. That is the whole Congressional situation in a nutshell.

Do you want to send a dry man to Congress?
Are you going to vote for national prohibition by voting for Harbison, or are you going to delude yourself into believing that by voting for Edwards you are not helping Kettner, who voted against the Hobson prohibition amendment?

The Register has absolute confidence in the good judgment and the good faith of the dry forces of Orange County, and it believes that with the facts set clearly before them the dry forces will not cast their votes merely to bolster the progress of the Prohibition Party when those same votes are needed now and can be effective now and ought to be used now in deciding matters of vital importance for the election of a dry Republican to Congress as the one definite step that the dry forces of this district can take this year toward national prohibition.

BIRMINGHAM, Ala., Nov. 4.—Nine white men and fifteen negroes today lost their lives in a gas explosion at the Sloss-Sheffield Iron Company, twenty miles east of here.

ART SMITH ONLY ONE OF 5 S. F. FAIR FLIERS STILL AMONG LIVING

SAN FRANCISCO, Nov. 3.—Art Smith is now the only one out of the five aviators who thrilled the crowds at the San Francisco fair now alive, and he may never take wing again, owing to his injury in Japan recently.

MAKES VOW TO REPEAT EXPLOITS OF BOELKE AS FLIER IS BURIED

BERLIN, Nov. 4.—Standing beside the open grave of Captain Boelke, Germany's greatest air hero, the colonel lieutenant chief of the German air fleet today made a solemn vow to attempt the exploits of Boelke, who was killed after downing forty enemy airplanes.

"The funeral of the noted flier was like that of a prince," one newspaper said. Boelke was killed when another German plane tore a wing from his craft. He died unvanquished.

3 VILLA LEADERS SHOT

EL PASO, Nov. 4.—Col. Rosario Garcia, Villista leader, and two followers were executed at Juarez today at day-break.

100 PERISH AS SHIPS COLLIDE AND SINK IN IRISH SEA

Hurricane Whips Vessels Together; Life Boats Are Wrecked; Bodies Found

LONDON, Nov. 4.—From 90 to 100 persons today are believed to have perished in the collision and sinking of the steamers Connemara and Retriever.

Only one survivor is reported, a man named Doyle. His escape was miraculous. He brought the story of the tragedy, which occurred early yesterday evening a few miles off the Irish coast.

The Connemara carried fifty-one people.

A terrific hurricane struck the two small steamers, the Connemara, outbound, and the Retriever, inbound.

When the vessels collided the crews of both tried to launch the boats. The sea was so heavy that those on shore believed that no boats could escape. Bodies are being picked up along the shore.

25,000 TEUTONS IN DRIVE ARE LOST

ROME, Nov. 4.—Twenty-five thousand Austrian soldiers have been killed, wounded or captured in the first four days of General Cadorna's sweep on Trieste, it is estimated here today.

RUMANIANS BREAK PART OF DOBRUDJA ATTACK

BUCHAREST, Nov. 4.—Following successful Rumanian resistance on the northwestern frontier the Germans attacked on the whole Dobrudja front after several days of lull in Field Marshal von Mackensen's operations. On the right wing the Teutonic forces were completely repulsed and on the left the Rumanians were repulsed and the Germans gained ground.

BRITISH IN WEST POUND BACK GERMAN

LONDON, Nov. 4.—The Germans in a counter-attack north of the Somme and east of Guedecourt lost four machine guns, it was today announced. A number of Germans were also made prisoners.

TEUTONS DRIVEN BACK BY RUSS PRESSURE

PETROGRAD, Nov. 4.—Under Russian pressure the Austro-Germans have retired north in the direction of Jui, it was today officially announced.

INTERMITTENT CANNONADING ON WEST FRONT

PARIS, Nov. 4.—Intermittent cannonading during the night on the Somme and in the region of Douaumont was the only activity, today's official communique stated.

BLOW BANK SAFE, GET AWAY WITH \$10,000

CALGARY, Alta., Nov. 4.—Cutting the telegraph wires, bandits today dynamited a safe and escaped with \$10,000 from the Merchants' Bank here.

Vote For Harbison; as Congressman, He Will Aid 'Dry' Cause

City Attorney of Orange at La Habra Meeting Praises Candidate's Record

"The men who go to Congress have the power to nullify what we are doing, and we should support that candidate from this district who stands for our principles and who has the best chance of election."—City Attorney W. R. Garrett of Orange.

In a forceful plea for California dry, subsequent national prohibition, an eloquent appeal for the election of R. C. Harbison to Congress, City Attorney W. R. Garrett of Orange, held the closest attention of more than 100 of the substantial residents of La Habra for three-quarters of an hour at a meeting at the school house there last night.

W. L. York, one of the active dry workers of that rich community, made the arrangements for the meeting, assisted by Frank Proud, and introduced the speakers of the evening. Rev. J. W. Adams, pastor of the First Christian church at San Bernardino, Harbison's home town, and City Attorney Garrett were the speakers.

Tells Admirations for Harbison
"I heard of Harbison long before this campaign commenced, and when I heard of the stand he had taken in San Bernardino I at once became an admirer of him," said Garrett. "I know what a railroad division point city is. I lived in one for many years. I know that it took conviction and backbone for a man to go into San Bernardino twenty years ago and make a fight for the dry cause as did Harbison. When a man takes a stand in advance of the crystallization of any sentiment he has woes and troubles. I admired Harbison when I heard that he had the backbone to turn his newspaper against the liquor interests in the city of San Bernardino twenty years in advance of the crystallization of a sentiment which today is sweeping the land, and which ultimately will result in national prohibition."

"We need a man like Harbison in Congress, and unless we send such a man there we will not get the full measure of our work."
"We want men in the national congress who will vote against the federal license, a law which permits the shipment of liquor to states where voters have said that they do not want the life-destroying and home-wrecking traffic."
"A man who has pioneered the way, as Harbison did in San Bernardino, is a safe man to represent us in Congress. We will need that man more after November 7 than ever before."

Garrett has sacrificed his business in Orange for several weeks in the interest of amendments Nos. 1 and 2. He has given time day and night in making public addresses in behalf of California dry and has been a power in the work. His endorsement of Harbison will carry weight throughout the county.

Roadhouse Praises Harbison
Rev. Roadhouse spoke of Harbison as a neighbor, a sincere man in his efforts in behalf of his fight for a dry San Bernardino city and county, of the financial sacrifices he had made in pioneering through his paper the dry cause in that city.

"Harbison is a man of his word," said Roadhouse. "If he was a wet man and pledged himself to fight in Congress for a dry measure, I would have the utmost confidence in him; if he was a dry man and pledged himself to support a wet measure, he would do it."

"Harbison is a fighter and he usually gets what he goes after. He is not an orator. He is a worker. If he goes to Congress, and of this I have very little doubt, he will not gain any great reputation as an orator, but while the men with this grand accomplishment are shooting hot air on the floor, Harbison will be found in a committee room working with prominent and influential men to get what his constituents want."

Gives Convincing Proof
"Harbison has the endorsement of some of the most prominent dry workers of his home community—people who have worked side by side with him for many years, and who know that he is dry. This should be convincing proof to other voters in the district that the attack on him by Edwards' campaign managers is unworthy of serious attention."

FRENCH PAY YANKEES TRIBUTE AS FLIERS ARE SENT TO SOMME

HEADQUARTERS OF THE FRENCH ARMIES, Nov. 4.—The American aviators fighting for France have been transferred to the Somme front. This is the highest tribute to the French confidence in the Americans and their ability.

The Americans are now at the center of the greatest aerial activity. The American fliers, after several days of comparative quiet at the Verdun front, took part in a reconnaissance which preceded the French victory at Verdun. They aided General Neville in the bold dash that recovered Fort Vaux and Douaumont.

CRAFT FLYING U. S. FLAG SUNK BY U-BOAT OF GERMANS, CHARGE

BERLIN, Nov. 4.—A steamer flying the American flag was sunk by the German submarine U-41 near the Scilly Islands September 24, a German officer interned in Switzerland charged today.

CALIFORNIA SAFE FOR CHIEF OF G. O. P., MORE THAN 50,000, FORECAST

Rowell Refuses to Revise His Former Estimate of Republican Majority

GIANT VICTORY FOR JOHNSON IS CONCEDED

Wilson Lead In Golden State To Be 25,000, Avers Democrat Leader

SAN FRANCISCO, Nov. 4.—Chester Rowell, Republican National committeeman of California, today issued the following pre-election statement:

"A careful canvass, covering every section of California, leaves no reason to revise the original estimate that California is safe for Hughes by an absolute minimum of at least 50,000, with actual figures indicating more than this."

"Governor Johnson's election by an overwhelming majority is conceded. O. K. Cushing, Democratic chairman, said:

"Wilson will carry California by at least 25,000. No significance is to be attached to any registration figures save those showing that a third of a million voters refused to give their party affiliations. I confidently place the Wilson majority at 25,000, but will not be surprised if it is much larger."

S. F. BETS \$300,000 ON ELECTION

SAN FRANCISCO, Nov. 4.—More than \$300,000 has been wagered on the presidential election in this city.

WILSON BELABORS LEADERS OF REPUBLICANS

LONG BRANCH, Nov. 4.—Expressing amazement that "men calling themselves statesmen" can discuss America's international affairs when the "whole world is lurid with the flames of a terrible conflagration," President Wilson belabored the Republican leaders in his final speech here this afternoon.

In his New Jersey Day speech he denounced making "party fun" and political capital out of the American foreign policy at this time.

"We are now in a drift of humanity which is to determine the future welfare of the world," he said. "It does not suffice for some gentlemen, looking back over their shoulders, to say what they should have done."

WILSON LANDSLIDE SEEN AT SHADOW LAWN

SHADOW LAWN, Nov. 4.—A Wilson landslide today was predicted by the Wilson marshals.

BOTH SIDES CLAIM VICTORY IN WINDY CITY

CHICAGO, Nov. 4.—With the waving of torches and the blaring of brass bands the campaign in the mid-West will come to an end tonight, both parties making all the noise possible to attract the "silent vote." Managers of both parties predict victory.

50,000 IN L. A. PARADE FOR 'DRY' STATE

LOS ANGELES, Nov. 4.—Fifty thousand persons today participated in a huge dry parade. Hundreds of floats and automobiles boosting the Prohibition vote, paraded.

U-TRADER'S STATUS IF WAR BOAT ACTS AS CONVOY PUZZLES U. S.

WASHINGTON, Nov. 4.—The German embassy today declared that it had no knowledge of a purpose to furnish a fighting submarine to convoy the merchant submarine Deutschland on her return trip.

WASHINGTON, Nov. 4.—Officials will be puzzled over the status of the Deutschland should reports that the merchant submarine will be conveyed back to Germany by a fighting submarine prove true.

The belief is expressed today that if the two submarines should act in concert the British contention that submarines will always be held in suspicion of being warlike vessels will be greatly strengthened.

The U-57, the war submarine, if headed for the vicinity of New London is expected to hover just beyond the three-mile limit, waiting for Capt. Koenig.

Should further sinking of British vessels occur off the New England coast at a time when it became known that the Deutschland with an armed escort was in the vicinity, a real issue between the United States and British governments might be precipitated, regarding the admission of submarines into neutral waters, it is feared.

SHAKESPEARIAN STAR COMES TO TEMPLE

Even the quiet of the woodlands is disturbed when the movies ordain a particular beautiful spot as a location for a feature picture, particularly when Vitagraph is looking for a background for its new star, E. H. Sothern, the most famous actor.

Two log cabins in a vast woodlands were what the manuscript called for and immediately preparations were started for the erection of the necessary habitations.

The last scene to be taken is one of these cabins was a fire scene where Mr. Sothern as the repentant husband rescues his girl wife, played by charming Peggy Hyland, from the blazing timbers.

Almost Serious
All went well up to the final point in this scene. Miss Hyland, arising from her chair suddenly, overturns her reading lamp and the blaze starts. Mr. Sothern, standing outside, waiting for the signal from Director Thomson to rush in and save the broken-hearted wife, became nervous when he saw the headway the flames were making in the strong wind. Finally the word was given, and rushing through the door of the cabin he found Miss Hyland lying on the floor overcome by smoke.

Gathering her small body in his arms, he carried her to safety while the camera-man unknowingly filmed what nearly became a tragedy. Even when she reached the side lines the little player did not stand up and the entire company worked over her many minutes before she opened her eyes. This scene is shown in "The Chattel," the Blue Ribbon Feature which features Mr. Sothern, who is ably supported by the little English star, Peggy Hyland. It will be exhibited at the Temple Theater on Monday, Tuesday and Wednesday.

ROSE TAPLEY SUPPORTS SOTHERN IN FEATURE

Rose E. Tapley, the popular Vitagraph player, portrays the role of the cultured woman of society in "The Chattel," the Vitagraph Blue Ribbon Feature starring the famous actor, E. H. Sothern, who is supported by the English beauty, Peggy Hyland.

Miss Tapley, who has held a high place in the hearts of all movie fans many years, was born in Petersburg, Virginia, on June 20, 1883. Before entering the pictures Miss Tapley was one of the popular players on the legit-

imate stage and it was only the summer vacations that influenced her in working before the camera.

Miss Tapley has written a number of scenarios for motion pictures and while with Richard Mansfield, she won a valuable prize which that eminent actor offered to the member of his company submitting the best scenario for a play.

This picture is shown at the Temple Theater next week, on Monday, Tuesday and Wednesday. This picture is one you will be pleased to see.

STRONG CAST SUPPORTS IRENE FENWICK, METRO

Irene Fenwick, who is starred in "The Child of Destiny," the Metro-Columbia five part screen production, which will be presented at Clune's on Sunday is surrounded by a notable supporting cast. One of the prominent roles is essayed by Mme. Ganna Walska, the renowned Polish singer who is featured with the Chicago Opera Company. It will mark Mme. Walska's debut in the silent drama, as she consented to take the part while in New York under a throat specialist. Mme. Walska is a talented dramatic actress, possessing rare beauty and a wonderful figure, and admirably suited for the role of the adventuress in "The Child of Destiny."

AMUSEMENTS

Sunday and Monday is the time, West End Theater is the place, "Gloria's Romance" is the theme and Billie Burke is the show.

And some show it is going to be with such a charming little actress, loved by everyone.

Manager Schlesinger says he does not know what he is going to do, for his theater will never, never, hold the throngs that are anxiously waiting to see Billie.

A big double bill will be given patrons on Sunday and Monday which will include a Pathe hand-colored feature.

The West End Theater will begin tomorrow changing program four times a week instead of twice, as heretofore.

Sundays, Tuesdays, Thursdays and Saturdays are announced as change days with an entire new bill on each change.

Paine and Paramount features will comprise the list of good things to see.

Manager Schlesinger announces the Christmas addition of "Picture Progress," his monthly magazine and program ready for all patrons who call at the box office for same.

FAMOUS FILM STAR PLAYS DUAL ROLES

Pauline Frederick, the celebrated emotional star, is to play a double role in the Famous Players Film Company's production, "Ashes of Embers," the Paramount picture at the West End, Tuesday and Wednesday next week. Miss Frederick appears in the dual roles of twin sisters who are absolutely opposite in character.

The one, Agnes, is a sweet-faced, self-sacrificing drudge. The other, Laura, is totally without conscience and so utterly selfish that she even steals from the department store cash drawer of which Agnes is sent to jail, where she is completely forgotten by Laura, who has used the dress in luring an infatuated millionaire into proposing to her.

It is in the development of these two absolutely different personalities upon the screen that the great genius of Miss Frederick is displayed. With just a few touches of make-up with which to give the different underlying expressions of sweetness and brutality to her face in repose, Miss Frederick interprets the two roles with marvelous skill. This is the sort of difficult histrionic work from which many of the stage celebrities shrink when they came to the motion picture studios because they feared they would not be able to do themselves justice. In the case of Miss Frederick, however, it was merely a matter of using the same superb intelligence which had won her fame as an emotional actress after she had begun her professional career in musical comedy.

"Ashes of Embers," by the way, is the first production in which Miss Frederick has starred since signing her two-year contract with the Famous Players, by the terms of which she abandons the stage for at least another two years. Produced under the direction of Joseph Kaufman, this great drama by Forrest Halsey is sure to prove one of the biggest successes ever shown at the West End Theater, where it will be the featured attraction next week.

Among those who appear in support of Miss Frederick in this production are Earl Fox, Frank Losee, Maggie Halloway Fisher, Herbert J. Frank and Jay Wilson.

WILLIAM FARNUM IN 'MAN FROM BITTER ROOT'

The name of William Farnum is enough to guarantee an all-day's crowd in any moving picture theater.

In every corner where the films attract, William Fox's feature plays are shown, and wherever Fox's pictures are, Farnum is known. No one can know Farnum without liking him. He is big, manly, whole-hearted; he is kind and considerate. He can be as gentle as a lamb or as fierce as a lion at a moment's notice.

William Farnum comes from a family of actors who have made their names known on stage as well as screen. Farnum himself has been starred in dozens of large New York productions.

"The Man from Bitter Root," Caroline Lockhart's story in which Farnum acts, has a role for a man of virility and strength. The hero is a miner who battles against enormous odds, to achieve the happiness that is his in the end.

He appears at Clune's Monday and Tuesday.

WONDER CAUSED WHEN FOX FILM CO. PLANTS PALMS IN BEACH SAND

NEWPORT BEACH, Nov. 3.—A thrifty farmer stood on the bluffs at Rocky Point a few days ago and gazed down at the beach below where a big launch was unloading several truck-loads of large palm trees which were being planted without delay in the sands of the sea beach. For a long time he watched what seemed to him a foolish attempt at horticulture, then he ejaculated: "Poor fools, don't they know their trees won't grow in beach sand?"

A Shakespearean scholar upon the opposite bluff opened wide his eyes in pleased wonderment. Here was a scene being enacted literally from the scene beloved "Macbeth." As he lived, "Birnam Wood was coming to Dunsinane," by water. In vain he looked at the moving trees in the hope of seeing a concealed army, but alas, those who carried them were commonplace men in working garb of the twentieth century.

An abalone hunter coming down the path glanced casually at the importation of the tropical vegetation and inquired briefly: "What company?"

"The Fox Film Corporation," is the answer.

The advance guard of the big film company arrived at Balboa a few days ago to arrange the set for a big water picture which will be released under the name of "The Island of Heart's Desire."

The story is an adaptation of "On the Rim," published in the July Argosy and will feature George Walsh in the leading role.

A tropical jungle was constructed on the beach which is complete and realistic in every detail. A large number of negroes were to be used in the production as the natives who attack the island in their quaintly constructed East Indian war canoes.

NEWS BUDGET ABOUT HARPER

HARPER, Nov. 3.—Mrs. A. C. Bainbridge spent Saturday and Sunday in Los Angeles.

Mrs. Josiah Sharp was a visitor in Long Beach last week.

John Jones and Newton Alleman returned from Bakersfield last Friday.

A delightful masquerade Halloween party was enjoyed by the young people of Harper Saturday evening at the home of Mr. and Mrs. J. R. King. The house was beautifully decorated with pumpkins, black cats, corn, apples, autumn leaves and many other suitable designs for that occasion. The guests were met at the door by a ghost and requested to sign their names as some kind of vegetable, which was used later on to distinguish one from the other. Fortunes were told and many Halloween games were enjoyed by all. Dainty refreshments were served and the guests departed at a late hour. Those who enjoyed the delightful evening were Misses Theo Snow, Rose King, Allie King, Sarah Kantz, Messrs. Carey Newton, Myron Brewer, John Jones, William Partlow, Glen Partlow, George King, Mrs. Guy Derby, Mrs. Harry Snow, Mr. and Mrs. Frank Fowler.

A large tract of land near Harper is being subdivided into acre lots by the Bryan-Bradford Company of Los Angeles, which brings a large number down each week to look over the land.

Mrs. E. A. Holland is spending a few weeks in San Diego.

A car containing 500 avocado trees has arrived and is being set out. When these are set, which will occupy about ten acres, it will make sixty acres in that orchard. There will be twenty more acres to set to complete the orchard. This orchard is owned by the Stearns-Henderson Company.

Mr. and Mrs. H. B. Woodrough and Mr. and Mrs. Frank McGinnis returned Saturday from their auto trip which covered about 760 miles. They made this trip in about seven days. They report a very enjoyable trip.

W. H. Fowler was a visitor in Harper Tuesday.

Vernon Wright and family, Don Lewis and family and Oscar Williams of Los Angeles were visitors of Mr. and Mrs. B. Mellott this week. They came down to try their luck at killing some ducks.

Dan Reich, the local bean grower, has purchased a new automobile.

Rev. McGrew of Whittier is a visitor in Harper this week.

W. B. Mellott and John Jones were visitors in Huntington Beach Wednesday.

The Ladies' Club gave a very interesting Halloween party at the home of Mr. and Mrs. Princlow, Tuesday evening. The ladies came dressed as ghosts, which caused great merriment later at the choosing of partners for supper. The table for the sixty guests was set in the new barn of the Princlows which was very prettily decorated with pumpkins, autumn leaves and many other suitable things. After the lunch they adjourned to the house and spent the rest of the evening with card games.

It is reported that W. B. Mellott, while out duck hunting near here Tuesday night, shot a large grey wolf. Halloweeners were busy around this section Tuesday night, but very little damage was done.

EDWARDS HERE IN LAST SWING HIS CAMPAIGN

Campaign Manager Taylor
Continues His Attacks
Upon R. C. Harbison

J. S. Edwards, Prohibition party candidate for congressman, is today completing a final campaign swing in Orange county. Last night he gave an address from an automobile at the corner of Fourth and Sycamore streets.

Edwards' address was preceded by an address by E. E. Taylor of Los Angeles, who is campaign manager for Edwards. Taylor's address was devoted almost entirely to an attack upon Harbison.

"As a member of the Central Fruit Exchange," said Edwards, "I know that Kettner said that he would do all he could to retain the cent and a half tariff. I am satisfied that he did all he could, but he couldn't accomplish it. Kettner is a fine man. I know Harbison, and he is a man of ability and will attend to the job well, if he

POLICE WATCHING FOR IMPOSTOR SOLICITOR

Notices have been sent to police officers of Southern California to be on the alert for a man who is soliciting subscriptions for Collier's. He is said to be an impostor. His game is to collect one dollar in advance, which is clear money to him.

He is described as a man with large dark-brown eyes, dark hair slightly tinged with gray, dark complexion, smooth shaven, about 5 feet 11 inches, fairly stout build and about 42 years of age. When working in San Francisco last week he wore a dark-brown, small-check serge suit.

ARE IN FAVOR OF BONDS FOR STATE ROADS

The undersigned, Orange County members of the Tri-State Good Roads Association, hereby endorse the \$15,000,000 state road bond issue to be voted on at the November election and urge the voters of the county to vote for said proposition which will be No. 3 on the ballot.

California's good roads are to be her greatest asset, attractive both to the tourist and the settler; profitable both to the producer and the consumer by enlarging and facilitating marketing by the former and consequently decreasing the cost of living of the latter; economical and enjoyable to the traveler; expediting the improvement of unimproved land and intensifying the farming of that now under cultivation and popularizing the advice, "back to the farm."

Military men advise good roads, urging that mobility is our best defense. Major P. S. Bond of the Engineering Corps of the United States Army has said, "Mobility can take the place of numbers much better than numbers can be made to take the place of mobility."

When the former good road bond issue of \$18,000,000 was voted in 1909 it was known that that sum would not complete the good roads system then outlined, but as James N. Gillett, governor at that time, then stated, "The first state good roads bond issue should be for only \$18,000,000, not because I supposed for a moment that that amount would build all the roads or even all the state highways needed but that if that sum was judiciously used the result would be to convince the people of the wisdom of good roads and that whenever money was needed in the future the people would gladly give."

We are advised that the \$18,000,000 bond issue was sufficient to construct about three-fifths of the system and that the additional \$15,000,000 is needed for completion.

Chambers of Commerce and similar organizations throughout the state appear to be unanimously in favor of the bond issue.

Vote for California's greatest dividend payer.

OBITUARY

Francis Harte Walling was born at Cawker City, Kansas, November 22, 1884.

When four years of age he came with his parents to California. The family lived for eight years at Garden Grove, later locating at Orange, where Frank grew to manhood, always a kind and affectionate son and brother.

He was married to Edna Brush April 10, 1907. After this some years were spent at or near Orange. For the past two years he was in the northern part of the state.

On the 26th of October while running a gasoline launch on the San Joaquin river in a dense fog, a collision occurred, the launch went down in sixty feet of water and Frank Walling was drowned. The body has not been recovered.

He leaves a wife, three children, Lloyd aged 8, Darrell 7, and Laureta 4 years old, also father and mother, Mr. and Mrs. Percy H. Walling; two brothers and two sisters, Mrs. Harriet W. Nash of Hanford, and Mrs. E. E. Ellsworth of Bakersfield.

QUIT MEAT WHEN KIDNEYS BOTHER

Take a Glass of Salts If Your
Back Hurts or Bladder
Troubles You

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become over-worked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.—Advertisement.

NESBITT BOND BE FORFEITED

Judge Thomas Is Awaiting
Official Notification of Pro-
bationer's Desertion

When Judge Thomas receives a reply to a letter that he has written to the adjutant general of the United States Army, he will declare forfeited the \$3,000 bond given by thirty men and women in connection with the probation of George Nesbitt.

Nesbitt, who got probation in connection with a charge of manslaughter in that he drove an automobile that killed Miss Isabel Thomas at Garden Grove, is reported in a government circular as having deserted from the army at Ft. Bliss, Tex.

When Judge Thomas returned from Honolulu he immediately wrote to the adjutant general and set Nesbitt's record before that officer. The judge asks for an official notification from the government that Nesbitt has deserted. He has asked that he be told what will be done with Nesbitt if he is caught, whether he will be made to serve a sentence in a federal prison, whether or not he will be turned over to the superior court here to be dealt with.

"Nesbitt made reports to me regularly up to the time that I left for Honolulu about October 1," said Judge Thomas, who is one of the thirty who are on the bond for \$100 apiece. Judge Thomas said that he did not think there was any possibility that the bond would not be declared forfeited.

HUMANITY—AND YOUR VOTE

By HENRY FORD

IN this great crisis of our country I am more interested in measures than in men, I am not interested in parties at all. But measures can only be put into force through the men in office. We must therefore make a choice of the man and men who will put the measures in force.

In the first place we should guard against Wall Street influences again securing the control of our Government. They have been rooted out during the last four years, and they are working hard to get back.

The eight-hour day should be extended to all our industries where possible. Women should be given the rights which in justice belong to them. For years the argument has had some force with me that women should be discouraged from working in factories and stores, and hence, they have been discriminated against in wages, but I have slowly come to the settled conviction that this practice has been unfair, because equal work deserves equal pay. Hence, all women in our employment who do equal work shall receive equal pay.

I regard war as the greatest curse of mankind—that it has done more to retard the progress of the race and its material well-being than any other single cause. We want to see war abolished and we believe it can be done, and we must try to choose the man for the head of our Nation who will do the most for these ends.

ALTHOUGH NOMINALLY A REPUBLICAN ALL MY LIFE, I AM FOR WILSON, AND URGE MY FELLOW CITIZENS TO STAND FOR HIM, BECAUSE OF HIS POSITION ON THESE AND OTHER GREAT QUESTIONS, BECAUSE HE HAS KEPT US OUT OF WAR AND HAS DONE MUCH TO BRING ABOUT THE REMARKABLE PROSPERITY WHICH WE ENJOY, AND BECAUSE WALL STREET IS AGAINST HIM.

He is entitled to be rewarded for his great service to mankind, and the only way we can reward him is by giving him the opportunity to be of still greater service.

The greatest reward for doing a good thing is the privilege to do more, that is why Mr. Wilson wants to be re-elected; in other words, to be paid for what he has done by the privilege of doing more.

I have much admiration for Mr. Hughes personally, but he is surrounded, influenced and advised by nearly all the evil influences of selfishness and greed which I feel have retarded our progress so long. I fear his election would restore the old crowd to power and put back the cause of humanity for fifty years.

In my mind, the most undesirable citizen in the world is the man who will buy another man's vote, and the next most undesirable is the man who will sell his vote—because he not only injures himself and his family, but the community at large.

I AM FOR MR. WILSON BECAUSE WITH A WORLD AT WAR HE HAS KEPT US OUT OF WAR. ALL OTHER GREAT NATIONS ARE BEING CONSUMED AND DESTROYED BUT WE HAVE PEACE WITH HONOR, AND OUR BOYS ARE AT HOME. SPECIAL INTERESTS ARE DEMANDING WAR AND THE PRESIDENT IS BEING CRITICIZED WITH MANY WORDS, BUT STRIPPED OF ALL UNNECESSARY WORDS THEIR REAL COMPLAINT IS THAT HE HAS NOT PLUNGED THE COUNTRY INTO WAR FOR THEIR PROFIT.

There has been much talk of the attitude of the so-called "hyphenates." To my mind these are merely sentimental Americans, men and women, who, like myself, have a feeling of love for the place of their birth. My observation has shown that among the best of Americans are these citizens.

To all these let me say: I know from many conversations with Mr. Wilson his absolute neutrality among all the nations at war, his intense devotion

to peace, his deep desire to serve all the peoples of all those countries impartially. Any single act apparently against any one of these countries, is made only in pursuance of his duty as President of the United States and his duty to mankind.

I know positively he bears no ill will to Germany or to England, or France, or Austria, or any of those countries at war, but he does understand and is opposing that invisible government, that unseen hand which caused this war. I believe those same selfish forces that caused the war are opposing the President's re-election.

I AM FOR WILSON because he caused to be passed a large number of wise and humane laws, most of which had been promised by the politicians of both parties for many years without fulfillment.

No one class has been favored, no one disregarded. He has served the United States as a whole.

Among these laws are:

THE FEDERAL RESERVE LAW, which wrested from Wall Street its monopoly of finance, released credit, forbade usury and dispelled the fear of money panics which hung over every business. It has done away with the concentration of money in the hands of a few men in Wall Street, and distributed it among twelve Government controlled reserve banks throughout the country. The passage of this law alone, from the viewpoint of the honest business man, should entitle Woodrow Wilson to re-election.

THE EIGHT-HOUR LAWS—The eight-hour day issue has suddenly sprung into great prominence.

I say to you from experience and not from guess work, that the eight-hour day will help both employers and employees. We have had the eight-hour day in force in the Ford factory for nearly three years and it has been a complete success from every point of view.

I AM FOR WILSON because he favors the eight-hour day. The President has declared that he is in favor of the eight-hour day in all kinds of business, except a very few in which it is impracticable, as for instance, farming.

The President has been criticized for the passage of the Adamson eight-hour law, which applies to railroads, but that law averted the wholesale ruin which a universal railway strike would have brought. A strike had been ordered. It meant the closing of factories, violence and the enforced idleness of millions of persons and the loss of millions of dollars. Neither side to the struggle took into consideration the one hundred million people who would have to bear the burden. Every business man in the country was trembling with fear. The President acted as the representative of all the people and the strike was prevented and the principle of an eight-hour day endorsed. Seventy-four Republican Congressmen voted for the bill and no word of protest came from the Republican candidate, although the law was under consideration for several days.

Mr. Wilson showed great wisdom and courage in preventing this strike, which would have paralyzed the nation.

The Commission which has been appointed to study the effect of this law will, I hope, report that with increased efficiency the railroads will not need higher rates. But in any case this action is, I believe and hope, the first step towards the government ownership and operation of railroads.

THE RURAL CREDITS LAW, under which the farmer is enabled to borrow long time loans on small payments, at low rates of interest; and it promises an annual saving of \$150,000,000 to farmers who were formerly the hopeless victims of loan sharks. These rural credit banks are now being established by the Commission in various parts of the country.

THE CHILD LABOR LAW, which prevents employment of young children in factories and stops the coining of dividends out of the lives of little children.

There is no factory and no institution that can possibly give any care equal to a mother's care.

A WISE WORKMEN'S COMPENSATION LAW, providing compensation to those injured while in the service of the government, which measure will lead to "safety first."

THE LAW CREATING THE NON-PARTISAN TARIFF COMMISSION, which will go into effect very soon, and which has taken the tariff out of politics and placed it in the hands of a commission of different parties, so that tariffs can be altered as conditions change.

THE GOOD ROADS LAW, which provides \$75,000,000 for improving highways throughout the United States under adequate safeguards, which will facilitate transportation. This will help the country feed the city.

The farmer will be greatly benefited by not being compelled to waste his energies on bad roads. Fruits and vegetables today are rotting on the farms from lack of good roads.

THE INCOME TAX LAW AND THE INHERITANCE TAX LAW, which readjust the burdens of taxation, compelling the wealthy to bear a fair share of the load which has hitherto rested all too heavily on the backs of the poor.

THE AGRICULTURAL EXTENSION LAW, which provides an annual appropriation for the direct education of the farmer, in order that the farms of the land may be worked with greater efficiency and upon a sound and scientific basis and produce larger crops for the benefit of all our people.

THE ALASKAN RAILWAY LAW, which provided a railroad built and operated by the government, and which has opened up the resources of that great territory in the interests of the PEOPLE, not for the benefit of the few.

THE FEDERAL TRADE COMMISSION LAW, which creates a non-partisan board to arbitrate commercial disputes, to prevent unfair competition and to stand as a barrier between the consumer and extortion.

THE GRAIN ANTI-GAMBLING LAW, which provides better grain storage facilities, and enables the farmer to obtain certificates on which loans may be secured. He is thus enabled to borrow on the products of his labor—and is not compelled to sell during unfavorable times.

THE SAFETY-AT-SEA LAW, through the passage of which ships now carry more life-saving equipment, and the general living conditions of sailors at sea have been improved.

THE COTTON FUTURES LAW, which prevents gambling in cotton in stock exchanges and establishes standards for cotton. I hope the President will find some way to pass a law to prevent all speculation in stocks.

THE CLAYTON ANTI-TRUST LAW, which does away with interlocking directorates, prevents railway looting, ends the abuse of the injunction, and declares the great truth that a "Man's labor is not a commodity but a part of his life."

THE ABOVE RECORD OF PROGRESSIVE LEGISLATION in the interest of all the people and not of the few, far exceeds any ever before known in our history.

THOMAS A. EDISON SAYS THAT PRESIDENT WILSON AND HIS COLLEAGUES IN CONGRESS, BOTH DEMOCRATS AND REPUBLICANS, HAVE ENACTED MORE LAWS FOR THE BENEFIT OF THE INDUSTRIOUS PEOPLE IN THE PAST THREE YEARS THAN THE REPUBLICAN PARTY HAS IN ALL THE TIME IT WAS IN POWER; and it is because of these laws and his leadership in the interest of all the people that the President is being fought by the special interests, by every master of Wall Street, every monopolist, every munition maker, every man with a special interest to serve. No business man should oppose Wilson because Wilson is the greatest friend honest business ever had in the White House.

GREAT PROSPERITY COVERS THE LAND AS NEVER BEFORE, LEGITIMATE ENTERPRISE IS ASSURED A PROPER REWARD. THERE ARE NO BREAD LINES, AND EVERYBODY IS EMPLOYED THAT WANTS TO BE. OUR PEOPLE ARE CONTENTED, PROSPEROUS AND HAPPY. WHY SHOULD WE MAKE A CHANGE?

In order to carry out his work President Wilson will need the co-operation of a Congress thoroughly in accord with his own far-seeing policy. It is our plain duty as voters to send back to Congress the right men, irrespective of party, to assist the President in the great tasks that face him.

Of the various offices to be voted upon next Tuesday, the least has been said concerning state senator. The reason why little has been said is that everybody recognizes that S. C. Evans of Riverside is as good as elected. The name of W. L. Duggan, Democrat, of Santa Ana, appears upon the ballot as Evans' opponent, but Duggan did not become a candidate with the intention of making a fight for election, and he has made no effort of any kind to further his candidacy. Evans will make an able state senator, and he will represent this district forcefully and creditably. He will become a leader among the legislators of the state. No man in Riverside county could be chosen who would be more familiar with Orange County's problems than is Evans, and with him in the state senate Orange County will have a champion.

FOR THE BONDS

On Tuesday of next week the voters of California are to decide whether or not they are going ahead with the good roads work of this state. They are going to decide whether or not they are going to give the State Highway Commission \$15,000,000 that is needed for the completion of a splendid system of paved highways throughout this state. While this question should be considered primarily from the viewpoint of the entire state, let us for the present look at it from the viewpoint of Orange County. Orange County has nearly all of the expenditure that it will get from the state. Should this \$15,000,000 be voted, however, some of it would be used here for the completion of concrete bridges to the south of Santa Ana and some of it for completing the shoulders of the state highway. Orange County ought to vote for the bonds because they will mean the completion of many arteries that will add to the travel through this county. The system as planned calls for the completion of the road from San Bernardino to Needles, of the road from San Diego to Yuma and of the road from San Bernardino to El Centro. Many other roads are projected that will be used by many residents of this county each year. The mileage out side of Orange County traveled by Orange County automobiles has increased to an extent that staggers the imagination. The more good roads there are in the state, the greater individual satisfaction will there be for Orange County travelers. In voting bonds, the question of cost is bound to arise. Who is going to pay the bill? At the meeting of the Merchants and Manufacturers' Association, Deputy District Attorney Eden declared that the bonds would be paid off without any of the principal coming out of Orange County. The bonds will be paid out of state revenues, which are raised largely by corporation taxes. The first of the bonds, which are \$375,000 each, will be paid off in 1923. The annual income of the state at present is \$20,000,000. That \$375,000 per year will be absorbed in the state budget, and no special arrangements to meet the payments will be necessary, for those arranging the state budget will be able to take a few thousand dollars from various other contemplated appropriations and make up the payment. The principal will not come from money collected through the various county tax collectors of the state. The interest is to be paid by counties in which the money is expended. At present, Orange County is paying interest on the money that was spent in building the state highway through this county. The \$15,000,000 will be

spent largely in other portions of the state. What little may be spent in this county will add but little to the interest we are already paying, and whatever minor expenditures may be found necessary in this county to complete the highway work here will meet with the approval of the people of the county. Orange County stands to gain much by the general gain of the state through its good roads, which are already famed the world over. There is no reason why Orange County ought not give its support to the bonds, which appear as Proposal No. 3 on the ballot, and there are many excellent reasons why the county should roll up a splendid majority for the bonds.

TO SCHOOL TEACHERS

In an effort to win the support of school teachers in California to President Wilson, the Democratic National Campaign Committee is sending out thousands of letters to women teachers. The letters also contain a card criticizing Charles Evans Hughes for his veto of a bill providing equal pay for men and women teachers and also for the vetoing of a teachers' retirement pension bill. The citing of the veto incident is evidently to create sentiment among the teachers and to get them lined up for Mr. Wilson. The letter sent to the teachers carries the signature of A. J. McKelway, director of the Bureau of Education and Social Service.

Great indignation is being expressed by teachers throughout California who are familiar with former Governor Hughes' action on these two bills, because of the misrepresentation of Mr. Hughes' attitude both as regards the bill for teachers' retirement pensions and the bill providing equal pay for men and women teachers. The idea of the Democratic literature sent out is to create the belief among teachers that Mr. Hughes, in vetoing the "equal pay" bill, was unwilling to accord equal pay to women when they were doing the same work as men teachers. As a matter of fact, Mr. Hughes always has been a strong advocate of equal pay for women and men and vetoed the bill providing equal pay for school teachers very reluctantly and only because it was obviously unconstitutional. The bill as drawn, included teachers in New York City only and did not include the teachers of the state as a whole. This clearly made it class legislation and contrary to the constitution and no option was left but to veto it when its obvious defects were noted by Governor Hughes. The same reason applied to the veto of the teachers' retirement pension bill. It applied only to teachers in New York City. The misrepresentation in connection with Hughes' veto of the "equal pay" bill was made by condensing into a hundred words Mr. Hughes' veto message which was a very lengthy one and covered the ground fully. Excerpts from his message are printed which taken by themselves give a totally different impression of Governor Hughes' attitude on equal pay for teachers than is shown by his complete message. The letter sent out to school teachers contains a pamphlet labeled "Woodrow Wilson and Social Justice." In connection with work for social reforms, it can be pointed out that no governor—other than Governor Johnson of California—has a record at all comparable to Governor Hughes. Some of the humanitarian measures enacted during Governor Hughes' administration are: The child labor law, employees' safety act, vocational training, sanitation for factories, and workmen's compensation acts.

TO SCHOOL TEACHERS

The Riverside Press in advising its readers to vote against Proposal No. 6, the Ineligibility to Office measure, offers a concrete case. S. C. Evans will be a member of the senate for the next four years; the people of this section would be very glad to see him appointed a member of the board of regents of the state university when a vacancy occurs, but under this amendment he would be ineligible. Neither position is a source of profit and Mr. Evans, by reason of his knowledge of and direct interest in the citrus station, would be a most valuable man on the board of regents. It is up to the voters of the state to say whether they want to put an absolute prohibition on appointments of members of the legislature to other positions. Took the Hurt Out of Her Back—Physicians report more cases of kidney trouble among women than men. Mrs. Anna Byrd, Tusculum, Ala., writes: "I was down with my back so I could not stand up more than half of the time. Foley Kidney Pills took all of the hurt out. They are the best kidney pills I ever took." Rheumatic pains, swollen ankles, backache, stiff joints, sore muscles, and sleep disturbing bladder ailments indicate disordered kidneys. ASSESSOR JAMES SLEEPER IS AGAINST NUMBER 5

To the Taxpayers and Voters of Orange County:—Having been asked by a great many taxpayers as to what effect Amendment No. 5, better known as the Single Tax Amendment, would have if passed, I feel it my duty to give you what information I can on the subject. We have an assessed valuation of \$57,403,590, composed of the following classes of property: Real estate \$30,254,450 Improvements 9,566,090 Personal property 9,766,250 Operative property (including banks, telephone, telegraph, electric and gas companies and electric railways 4,521,555 Railroads, as assessed by the state 3,295,245 Now take away from our assessment rolls all classes of property but the real estate, and the real estate would have to carry an extra burden of nearly double the present tax for county and other local expenses; besides it would have to care for all state expense and bonded indebtedness, which amounts into the millions. The railroads would be taxed for the land they occupy, and nothing more. (All rolling stock and improvements would be entirely free from taxes.) Real property would bear all drainage, protection, lighting, road improvement and other special taxes. If the intent of the amendment is to take away all rental values of land, as it states, what value would there be to the land holder, whether he be large or small? Taxation is a big and dangerous subject, and while every one knows that our present tax laws are not perfect, (and I do not know of any that are) any changes should be made in a cautious and careful manner, so we may know we are getting the tax burden equitably distributed. At the present time we have a tax commissioner appointed by the last legislature at an expense of \$75,000 to investigate and make recommendations for improvements in our present system. Why not wait for their report, which will be made at the next session of our legislature in January, 1917? JAMES SLEEPER, County Assessor.

WILL BE DANGER

Fresno Republican: According to President Wilson, there need be no fear of destructive competition from abroad after the war, because the belligerent nations will be so wasted by war that they will have ceased to be formidable. If President Wilson would utilize his knowledge of history, he would know that no such conclusion follows. In military prowess, for instance, the United States has never been so well prepared as at the close of a long and exhausting war. Even the southern confederacy, for instance, at the moment when it surrendered to sheer exhaustion and attrition, was better equipped to have conducted war against Mexico than the whole United States is at this moment. What is left of the exhausted armies of Europe at the close of the war will be the most powerful and efficient force that the world ever saw prior to the beginning of this war. The same thing under modern conditions will be true of the industrial forces of the nations. The mobilization of industry in modern war is scarcely second in importance to the mobilization of soldiers and guns. All the nations of Europe have learned this lesson and are now running their industries, with the majority of the young and able-bodied men out of them incomparably more efficiently than they ever succeeded in running them before, even with their whole populations at work. Only a minor part of this industry is concerned directly in the production of arms and ammunition, and even this part could be transformed almost immediately into the production of articles of peace. Most industries which now supply armies and civilian populations under war conditions are making and transporting things which would be equally useful for purposes of peaceful commerce. Great as is the human wreckage of war, the principal nations of Europe, by their increased ability to use what human material they have left, will go into the new era better equipped than they were when they went out of the old. And all these resources will be, as never before, at the direct service of national government in the new era which the commercial promotion of national prosperity will be, as it never was before, a primary function of government. The lesson of mobilized efficiency which Europe has been compelled to learn, we have been able, so far, to avoid troubling ourselves to learn. With the restoration of peace, we must learn it or take the consequences; indeed, without an adequate protective tariff we must take the consequences anyway, before we have time to learn it. And under a president, a Congress and a party which do not believe in learning it, and are committed to policies which would make it impossible to learn or carry it out, we should be helpless indeed to maintain ourselves in the new world into which we shall be flung.

TRYING TO BLINDFOLD THE PEOPLE

Minneapolis Tribune:—The great slogan of the Democratic party in this campaign is: "He (Wilson) has kept us out of war; and by that sign they hope to conquer. Now, if he has kept us out of war and, in doing so, has done something that should bind us to all the other facts of the situation, let us give him credit for it, for all it is worth. But if he has not kept us out of war in the sense that he has done nothing extraordinary to prevent it, and if what he has done has not been well done, ought we to close our eyes to all the real issues of the campaign? In the first place, to be kept out of war implies that somebody was trying to get into war. Who was it? Mr. Wilson does not tell us; if he could he probably would. Of course, keeping out of war does not refer to Mexico. That is understood. Everybody knows we are at war with Mexico and have been off and on for two years or more. There is a sort of truce on now, but we have 100,000 men under arms on the border and 50,000 more on Mexican soil. But this is just the beginning of what we are morally certain to have on our hands a little later as the result of our having destroyed the only constitutionally formed government Mexico has had since this administration came into office. When the European war ends, we will either abandon the Monroe Doctrine and leave Mexico to the mercy of nations who are not indifferent to the murder of their citizens by Mexican revolutionists and the destruction of their property, or we will get busy in Mexico making good to Great Britain, France and Germany for the injuries inflicted upon their citizens while we have been waitfully watching the sufferings inflicted upon our own because of the anarchy and ruin our Mexican policy has brought about. But never mind about the war. It can only be a small affair in these days, and doubtless the Democrats would insist that it does not count, although it is already costing us \$15,000,000 a month. No, the Democrats do not care to talk about this war on our Southwestern border. They mean the great European war. Who Wanted War? All right. Let us see about that. Anybody here wants to go to war with anybody in Europe? Nobody seems to want to. Mr. Wilson has not named anybody who has expressed a desire for war. It must be, then, that the idea that anybody here was being kept from going to war is a mistake. How about the people on the other side? Anybody over there been crazy to go to war with us? It could hardly be Germany. Germany has all the war on her hands now, and has had almost from the beginning, that she can attend to. It would have been silly for her to pick a quarrel with us at any time and turn all our resources of men and money and materials over to the support of her enemies; and Germany is not silly. And the allies—have they shown any disposition to go to war with us? Not that anybody knows of; nor has there been time since the war began, nor will there be until it ends, when they can afford to. They need us too.

clared in favor of resistance of the effort of the French to gain a foothold in Mexico, where they were supporting Maximilian. We were too busy preserving the Union just then to take any immediate action, but no sooner was the Civil war over than France was notified to get out of Mexico, and she did so, on the jump. This happened during the administration of "Andy" Johnson, who is certainly no heroic figure.

When Mr. Cleveland was president, he served notice on Great Britain, when threatening encroachment on Venezuela, that if it was not discontinued it would be resisted by all the power of the United States. Great Britain sat up and took notice; but there was no war.

A little later Germany, not profiting by Great Britain's experience, in pressing certain claims against Venezuela, adopted an attitude in defiance of the Monroe Doctrine and hostile to our government, whereupon Mr. Roosevelt served upon Germany an ultimatum which would have meant an immediate clash if Germany had not discovered that Admiral Dewey was aboard his flagship ready for action. And Mr. Roosevelt had no war.

As recently stated in these columns, a member of Mr. McKinley's cabinet is quoted as having said in later years that a red-hot message to Spain in 1897 would have freed Cuba without war. It is true that Mr. McKinley did not keep us out of war, but the sounders of the slogan, "He kept us out of war" are not citing the Spanish-American war as something that might have been avoided by Wilsonian policies, because our Mexican war has already cost more lives and the destruction of more property many times over than the Spanish-American war, and we are not through yet.

We have not always been kept out of war. We have had two other foreign wars since our independence was established, both of which were brought on during the administration of two presidents—Madison and Polk—whom more than any others in the long list of our presidents, because of their weakness and vacillation, resemble our present chief executive.

How About Vera Cruz Perhaps "He has kept us out of war" sticks in the minds of some people because they think Mr. Wilson is less likely to accept slight occasion for resorting to war, and therefore promises greater security for the future, than Mr. Hughes. If that notion be entertained, it must be where there has been complete oversight of the seizure of Vera Cruz. It was not to redress the wrongs inflicted upon American citizens in Mexico and insure their protection, but because of so comparatively trifling a thing as a salute to the flag, after abundant and abject apologies had been made for the original offense, and from an authority which we refused to recognize as a government, that we seized the port of Vera Cruz and entered upon a course of action which, if it had been directed against any power able to offer resistance, would have resulted in a great war. So it appears that not only has Mr. Wilson kept us out of war, but he has betrayed a disposition to rush to arms upon a trifling pretext and then abandon the enterprise without accomplishing the object sought, while his failure to protect the lives and property of our citizens on land and sea and to defend by a dignified and courageous attitude the honor of our country has caused the title of "American Citizen" to be of less consequence around the world today than at any time for more than a century. You may resent the statement but you cannot controvert the fact. "He has kept us out of war" is a delusion which the supporters of Mr. Wilson would bind like a blindfold over the eyes of the people in the hope that they will not see through it to the great issues of the hour. Have they got you?

badly. We are feeding and clothing them and providing them with munitions. It would be silly for them to go to war with us, out of their source of supply and all these things which they need so much and array them against themselves. And they too, are not silly. Now, if we did not want to go to war, and Germany did not want to go to war, and the allies did not want to go to war, what an awful job it must have been to keep us all from doing something none of us wanted to do! This, of course, is not to say that on account of the war, difficult situations have not arisen. They have. But difficult situations have arisen before when those with whom we might have had trouble were not one-half or one-hundredth part as busy as they are now.

DEMOCRATIC COLUMN

(This space is purchased and edited by the Orange County Democratic Central Committee, which is solely responsible for all matter printed under the above heading.)

Blundering Into War Mr. Hughes, in answer to the claim that President Wilson has kept the country out of war, says that no one but a blunderer could get us into war. That may be true but considering the fact that during our comparatively brief existence as an independent nation we have had three foreign wars, and the greatest civil war in history, together with innumerable Indian wars, it indicates a high percentage of blunders among our statesmen. Whether or not Mr. Hughes would have blundered into the international situation of the past three years cannot be known; but it is a substantial fact, and a reassurance for the future, that President Wilson did not blunder.

The President's Policy "To maintain our national honor by peace if we can, by war if we must," is the motto of the President of the United States.

This policy may not satisfy those who revel in destruction and find pleasure in despair. It may not satisfy the fire-eater or the swashbuckler. But it does satisfy those who worship at the altar of the God of Peace. It does satisfy the mothers of the land at whose heart and fireside no jingoistic war has placed an empty chair.

It does satisfy the daughters of this land from whom bluster and brag has sent no loving brother to the dissolution of the grave. It does satisfy the fathers of this land and the sons of this land who will fight for our flag, and die for our flag when reason primes the rifle, when honor draws the sword, when justice breathes a blessing on the standard they uphold.

What Kind of Laws Hughes says, "I believe in labor legislation." But he denounces the trainmen's eight-hour law, opposes equal pay for male and female teachers doing the same grade of work, and approves taking from poor haters their homes and savings to pay fictitious damages to a wealthy corporation. What KIND of labor legislation does he believe in?

GROVE PASTOR TELLS WHY HARBISON WORKED FOR WET CANDIDATES

The Eleventh Congressional District has been flooded this week with a letter purporting to have been signed by prominent "dry" workers in Redlands and vicinity attacking R. C. Harbison's "dry" record, the letter being accompanied by a printed sheet signed by Earle A. Rowell, publicity manager, and E. E. Taylor, campaign manager for Edwards.

Among the charges by the latter is one that Harbison supported two "wet" candidates for supervisor two years ago.

Rev. O. W. Reinius, formerly pastor of the First Methodist church at Rialto, and appointed pastor of the church at Garden Grove at the conference held here in Santa Ana last month, was in that fight. He supported the same candidates that Harbison fought for and is advocating Harbison's election to Congress.

"The campaign referred to was not a 'wet' and 'dry' fight," said Rev. Reinius this morning. "The men whom the W. C. T. U. and 'dry' workers endorsed had been 'wet' men all their lives and one of them was reported to own an interest in a winery. They pledged themselves to support any 'dry' measure that might come before the board, Harbison backed Pine and Van Wie against Kincaid and Riley. Pine was chairman of the board of supervisors which gave the people opportunity to vote on local option. I did not consider it a 'wet' and 'dry' fight and voted for Harbison's men because I believed them the safer and best men, as did the leading members of my church and the leading 'dry' workers of my community."

Burke Voted RIGHT
Burke Voted DRY

Assemblyman J. C. BURKE, Republican Nominee for Assemblyman

Is up for re-election. Let us examine his record.

We Find That

BURKE VOTED RIGHT ON MORAL ISSUES.

We Find That

BURKE VOTED RIGHT ON THE DRY QUESTION.

BURKE VOTED DRY.

Franklin Hichborn, writer of books on California politics, head of the publicity department of the California Dry Federation, has prepared a table showing how each assemblyman voted upon the measures that Hichborn classes as moral issues.

That table shows how Assemblyman J. C. Burke voted.

It shows that Assemblyman Burke voted RIGHT on the measure to make property responsible for illegal liquor sales.

Burke voted RIGHT on the measure to prevent the distribution of liquor at schoolhouses.

Burke voted RIGHT on the measure Bruck amendment—that is, he voted no, and he voted no each time the measure came to a vote on its merits.

Burke voted RIGHT on a measure to prevent gambling with dice, cards, etc. That measure was defeated 16 to 43. Burke voted for the bill.

Burke voted RIGHT on the measure providing education in schools concerning narcotics.

Burke voted RIGHT on the notorious Marron bill, by which it was attempted to restore racetrack gambling in California.

On the Bruck amendment, Franklin Hichborn, chief of the publicity department of the California Dry Federation, says:

"The measure for which the liquor interests at the 1915 session bent all their energies was the so-called Birmarck Bruck Constitutional Amendment. The fact was brought out that its ratification would not only make it practically impossible to proceed against the saloon, but would make California the dumping place for distilleries, breweries, and saloons which are being driven out of neighboring states."

Two votes were taken upon that proposal, which put to the test the attitude in the legislature of every assemblyman upon the wet and dry question.

Assemblyman J. C. Burke of Orange County voted no upon the Bruck Amendment both times that it came to a vote.

J. C. BURKE KNOWS ORANGE COUNTY.

MUSIC, COMEDY CHARM LYCEUM AUDIENCES

First Number of Course Gets Splendid Reception on Wednesday

The first number in the Tustin Lyceum course was given Wednesday night in the school auditorium to a very gratifying audience as to numbers, and those who came congratulated themselves all through the evening upon the opportunity to see and hear "The Regniers."

The evening's entertainment represented a day in the home of a musical couple. The husband leaving to have some slight repairs done to his trombone, the wife is told to amuse herself with some new songs left on the piano, which she plays very beautifully for the benefit of the audience. The first of a number of fine impersonations was that of the old Irish janitor of the building in which they live, who, coming in while she was singing, told her of complaints among the apartment dwellers about the noise she was making. He was soon put in a good humor and was "ticked to death" to sing for her "The Wearing of the Green" in a splendid voice and typical Irish brogue.

Her next visitor was the Italian fruit vendor. Called in by her so she could purchase some fruit, he incidentally told her that he had sung in grand opera in Italy and that he had learned one of her songs from grand opera in listening under her window. She at once had him sing it and he proved himself to have a wonderful voice.

Uncle Seth and his "Henhawk Bill," which he is trying to get before the Legislature, was perhaps the finest impersonation of all. Uncle Seth's logic ran thus: "Too many hen-hawks no chickens; no chickens no preachers; no preachers no churches; no churches no morals." Uncle Seth is made to forget his "Bill" when he agrees to sing "When You and I Were Young, Maggie," trembling with excitement at his effort and shakily keeping time.

Upon the return of the husband with his trombone, the couple gave the audience some delightful selections.

The Regniers were entertained by Mr. and Mrs. John Sauer, Mrs. Sauer and Mrs. Regnier having been college mates.

BEREAN BIBLE CLASS MEET; 'THANKFULNESS' THEME OF AFTERNOON

The monthly business and social meeting of the Berean Bible class was held Wednesday afternoon at the home of Mrs. T. R. Overton. The theme for the afternoon was "Thankfulness."

The devotional exercises were led by Mrs. A. D. Turner and the scripture lesson read was a psalm of joyful praise and thanksgiving. Each one present was asked to name some personal experience for which she could be especially thankful. This brought out several unusual happenings to some of the ladies and one or two narrow escapes for which they were glad to give thanks.

After adjournment the remainder of the afternoon was enjoyably spent socially, the hostess serving refreshments consisting of dainty sandwiches and pickles, chocolate and cake.

The December meeting will be omitted on account of other things going on at that time and the next meeting will be held the first Wednesday in January with Mrs. G. W. Pollard. The theme for that meeting will be "Opportunity."

BABIES HELP ENLIVEN COREOPSIS MEETING

The Coreopsis Club members were enjoyably entertained Wednesday afternoon by Mrs. J. D. Howes. The meeting was a lively one because of the presence of five interesting babies to share with embroidery and crochet the attention of the older folks, and the afternoon was given up mostly to recreation.

The rooms were decorated with pretty chrysanthemums. When luncheon was served the guests were seated at a prettily appointed table with a tempting fruit center, the hostess serving sandwiches, olives, pickles, doughnuts, pumpkin pie, bananas and apples and coffee.

Those present were Mrs. Jack King, Mrs. Ida King, Mrs. Charles Lambert, Mrs. E. E. Smith, Mrs. Hart, Mrs. Alton Alderman, Mrs. Hattie Swartz and Mrs. George Prather.

W. C. T. U. ENTERTAINMENT

The entertainment given by the W. C. T. U. last night in the school auditorium drew a good crowd.

The little playlet was quite amusing and splendidly carried out by home talent. At the end of the play a program of music and other numbers included piano and violin music by Prof. and Mrs. Andrist, which was enthusiastically received.

The beautiful variations of the "Mocking Bird" brought a storm of applause and they were compelled to play it again.

The evening's entertainment closed with an impressive reading by the millionaire young lady of the play, who signed the pledge while visiting in the temperance home of her friend.

LITERATURES TO MEET

The regular meeting of the Tustin Literature Society will be held next Tuesday afternoon at the home of Mrs. W. L. Leiby.

ALCOHOL VS. GASOLINE

If alcohol can become a servant in the industrial world, rather than a master of the social world, the economic argument urged by the opponents of prohibition will lose much of its force.

The rising price of gasoline, and the increased use of automobiles, both for passenger service and as trucks, makes it absolutely necessary to find some substitute to furnish motor power with which to run these vehicles.

"Gasoline has become about as necessary to the average man as butter," remarked a research secretary recently. "From the standpoint of the manufacturer, gasoline or a satisfactory substitute, at low price, is the only salvation of hundreds of millions of invested capital. Face the facts, then, that the sources of gasoline are not only exhaustible, but are rapidly being exhausted. There will be a substitute because there must be a substitute.

Is there a certain substitute, one that may be made satisfactory, cheap and available in unlimited quantities? Alcohol is such a substitute. In engines adapted to its use, it is not only as satisfactory as gasoline, but is productive of more power and greater speed, is cleaner, sweeter, safer, and its source is as inexhaustible as the sunlight and the air."

The source of supply is unlimited because it may be renewed year after year, as any vegetable product containing either starch or sugar may be utilized in the production of alcohol.

This points to the coming of the day when alcohol, which has made a large part of the human family its slave, shall itself be harnessed to the chariots of industrial progress.—Southern California White Ribbon.

KENDRICK HALLOWE'EN WHIST PARTY HUGELY ENJOYED BY GUESTS

The Halloween whist party given last Saturday night by Mr. and Mrs. Harry Kendrick was a most enjoyable affair to those participating.

The decorations were in keeping with the season in a splendid array of black cats and witches running up and down the curtains and over everything.

The intensely interesting game of whist absorbed the evening hours. The ladies' first prize, a pretty crocheted doily, was won by Mrs. Edith Matthews, and the gentlemen's first prize, a box of stationery, by F. C. Matthews.

Violin and piano music by Harry Kendrick and Mrs. Floyd Turner contributed to the evening's enjoyment.

At the close of the games delicious refreshments were served, consisting of chicken sandwiches, olives, pumpkin pie and chocolate.

Those present were Mr. and Mrs. Fenlon Matthews, Mr. and Mrs. Arthur Trickey, Mr. and Mrs. Harry Kiser, Mr. and Mrs. John Kiser, Mr. and Mrs. Dudley Kiser, Mr. and Mrs. Harry Brookbank, Mr. and Mrs. Grant Holderman, Mr. and Mrs. Floyd Turner, Miss Stella Jessup, Miss Ethel Alderman, and Harry Rhel.

GHOSTS, WITCHES AND BLACK CATS FURNISH VAST FUN AT PARTY

Halloween night was joyfully celebrated by the young ladies' class of the Presbyterian Sunday school in the domestic science rooms at the school house, amid elaborate decorations of jack-o'-lanterns and grapevines, black cats and witches. Of course the members of the young men's class were invited guests. The fun of being masked was most exciting and the usual deep interest centered around the fortune telling booths. There were about twenty-five young people present and there were just about as many hair-splitting ghost stories told. There were also guessing games and apple bobbing as well as apple eating and eating of plenty of other good things.

For Winter Colds

You need a real tonic. Strength is required to overcome the trouble. Let that tonic be one that is specially valuable in catarrhal conditions, and you can conquer the cold. A cold is acute catarrh; it may become chronic. Chronic catarrh frequently becomes systemic, involving the stomach and the intestinal tract as well as the nose or throat. It means stagnation.

PERUNA IS INVIGORATION

It clears away the waste matter, dispels the inflammation and tones up the system. For forty-five years it has been used in catarrh by thousands of grateful sufferers, who willingly tell the world of their relief. Peruna's long history of helpfulness is the best evidence that it is what you should take.

Liquid or tablet form for your convenience.

Manalin is the ideal laxative and liver tonic. In tablet form it is delicious to take, mild and effective, without unpleasant effects, and will not form a habit. Liquid, 50c and \$1.00; tablets, 10c and 25c.

Ideal Gas Furnace

All the heat you want and no more. Just as long as you want it and no longer. No ashes, no dust, no waiting for fire to burn. No gas fumes in the house. No sweating of walls and windows. No danger of asphyxiation. It utilizes 95 per cent. of the heat units in the gas. It is superior to any other furnace at any price. It is cheaper than any other good furnace. It is particularly adapted to this climate. It delivers the maximum amount of heat in five minutes after lighting. Perfect combustion of gas. An abundant supply of fresh warm air in every room.

Jump from Bed in Morning and Drink Hot Water

Tells why everyone should drink hot water each morning before breakfast.

Why is man and woman, half the time, feeling nervous, despondent, worried; some days headachy, dull and unstrung; some days really incapacitated by illness?

If we all would practice inside-bathing, what a gratifying change would take place. Instead of thousands of half-sick, anaemic-looking souls with pasty, muddy complexions we should see crowds of happy, healthy, rosy-cheeked people everywhere. The reason is that the human system does not rid itself each day of all the waste which it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out, else it ferments and forms ptomaine-like poisons which are absorbed into the blood.

Just as necessary as it is to clean the ashes from the furnace each day, before the fire will burn bright and hot, so we must each morning clear the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women, whether sick or well, are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harmless means of washing out of the stomach, liver, kidneys and bowels the indigestible material, waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Millions of people who had their turn at constipation, bilious attacks, acid stomach, nervous days and sleepless nights have become real cranks about the morning inside-bath. A quarter pound of limestone phosphate will not cost much at the drug store, but is sufficient to demonstrate to anyone, its cleansing, sweetening and freshen-

IN THE JUSTICE COURT

TWO DAYS AND SIX MONTHS IS GIVEN MEXICAN BICYCLIST

Manuel Seballas got two days more than the limit. Justice Cox found that Seballas had parts of at least two stolen bicycles, and concluded that Seballas was a little more guilty than he would have been had he had but one bike.

The limit for stealing a bicycle is six months in jail. For full measure, Cox postponed sentence as long as he could, forty-eight hours, and at the end of that time, which arrived this morning, he gave Seballas six months.

RETURN KETTNER TO CONGRESS

"ALWAYS ON THE JOB"

The best representative at Washington this District has produced.

He has been there for two terms. He has made good. This is generally conceded by all. A man who gives service in a public office should be retained. Experience counts in everything.

Being a member of the River and Harbor Committee, Kettner is in a position to do much more work for Newport Harbor, and he will do it. Therefore a vote for Kettner is a vote for the interests of Orange County.

DON'T BE ALARMED ON THE TARIFF QUESTION

for by the creating of a non-partisan, scientific Tariff Commission, the tariff is forever removed from politics. Wm. Kettner voted for this measure—another good reason why he should be returned to Congress.

TO ASSAULT WET TRENCHES IN BIG SUNDAY DRIVE

Orange county dry workers will touch hands with San Bernardino county tomorrow afternoon by going into the heart of the vineyard section at Ontario and co-operating with the workers of that vicinity in an effort to convince the voters there that they should support the dry amendments next Tuesday.

The Flying Squadron of Orange—the squadron which has assaulted the trenches of the wets in every section of the county—is at the head of the big auto excursion to Pomona and Ontario tomorrow afternoon.

Forty machines in Orange have been enlisted for the afternoon journey, and it is hoped that other sections of the county will join the party and demonstrate to the voters of the section to be visited that Orange county is in thorough accord in opposition to the continuance of the saloons in California.

The machine brigade will leave the First Christian church at Orange tomorrow at 12 o'clock and will go to Pomona by way of Brea canyon. It will be met there by dry workers and an address of welcome will be delivered by the mayor of Pomona, with response by Mayor Stone of Orange.

At 2 o'clock the procession will move on to Ontario, where a rousing meeting is planned at the park, following a parade through the streets of Ontario.

City Attorney Garrett, Rev. Spicer and Prof. Teach, all of Orange, will make addresses. The Orange dry quartet, whose services have been in demand all over Southern California, will accompany the squadron.

Santa Anans are urged to participate in the big demonstration. The return will be in time for evening church services, as practically every minister in Orange will be members of the expedition.

FIRE FIRST SHOT TO RECOVER INHERITANCE TAX FROM BIG ESTATE

SAN FRANCISCO, Nov. 3.—The first shot was fired today of the heirs of the late multi-millionaire cattle king, Henry Miller, to recover inheritance taxes. It was fired when a suit was filed to quiet title. Suit against the State of California was brought by Mrs. Le Roy Nickle and her husband, the principal heirs.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work. People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, gripping catarrhs are derived from Dr. Edwards' Olive Tablets without gripping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint with the attendant bad breath.

Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c per box. All druggists.

YES, "HOW DID HE VOTE?"

WET OR DRY, TWO YEARS AGO?

HOW WILL HE VOTE ON NOV. 7TH?

Mr. Burke, the advertisement of the Republican County Central Committee appearing in yesterday's issue (Oct. 31st) of the Register, states "BURKE VOTED DRY," but does not say that you voted DRY on the prohibition amendment two years ago, or that you will vote DRY on the Dry Amendments 1 and 2 on November 7th. These are the questions of interest to the dry voters of Orange County.

REV. STONE SAYS HE WAS MISINFORMED AS TO SIMON'S POSITION

This afternoon Rev. S. W. Stone, chairman of the Prohibition Party Central Committee, stated that he wanted to make a correction of a statement that he made last night at the Edwards meeting.

"At that meeting," said he, "I said that W. W. Simon, who is a candidate for the assembly, was supporting Mr. Edwards for congressman. I was misinformed as to the facts in the case, for in a conversation with Mr. Simon today Mr. Simon told me that he had not committed himself. Mr. Simon got the Prohibition party nomination, but I am informed now that he was never questioned as to his stand and accepted the nomination without pledging himself."

AT THE COURTHOUSE

JUDGE GRANTS NEW TRIAL IN PUSEY ESTATE

Fight Over Validity of Will Is Again Opened Up In Local Court

A new trial has been granted in the contest over the estate of Mrs. Gertrude Finley Pusey, and the case will come up before the superior court here upon the validity of Mrs. Pusey's will.

The will was written before the maker of it was married to an Oregon man. After her death, the will was filed for probate by Attorney Steele Finley, with Col. S. H. Finley as petitioner, he being named in the will as executor. Pusey with Attorneys Williams & Rutan representing him took the view that the marriage annulled the will.

When it came to trial, Attorney Finley declared that the marriage to Pusey was illegal because Pusey had never been legally divorced from his first wife years ago. The contention was that no sufficient summons had been served when Pusey got a divorce from her. The case was submitted, and the will sustained. An appeal was taken. A supreme court case was decided in which it was found that it was necessary to prove that at the time of the second marriage, the first wife was still living.

That proof had not been made in the Pusey case, and the court's judgment was reversed, and the case came back. Since then letters of administration have been issued to C. S. Crookshank, as a representative of Pusey.

Suit for Divorce

Another suit for divorce has been brought by Ida Ashby against Walter W. Ashby. Dick Harding is attorney for the plaintiff. The complaint states that Ashby acted like a "cave man."

Answer Filed

An answer has been filed by H. S. Kennedy of Los Angeles, son-in-law of E. P. Nickey of Santa Ana, in the action in which \$25,000 damages is asked by Eutimio Espinosa, injured when his motorcycle struck Kennedy's automobile near Seal Beach. The answer declares that the accident was entirely due to Espinosa's carelessness.

Will Is Filed

J. G. Quick has filed the will of Katherine Merkle for probate. E. E. Keach is attorney for the petitioner. The will leaves \$500 to the Ebenezer Orphans' Home of the Evangelical Association at Flat Rock, O., and practically all of the remainder of the \$2500 estate to Helen Williams of the Los Angeles, a granddaughter of the deceased.

Move Indicates That Drys At Anaheim Are Watchful On the Job

As a part of watchfulness in their fight for California dry, a number of Anaheim drys have had the residents in four lodging houses at Anaheim listed officially.

Under the law when ten persons petitioned the county clerk for an official list of the residents of lodging houses, which must be named in the petition, the clerk must delegate some person to secure signed statements from the proprietors of those lodging houses as to who live in their places.

O. T. Cailor, L. A. Evans, A. A. Mills, W. A. and G. M. Ross, M. C. Beebe, H. O. Henderson, Mrs. Edith Edmiston, Roy Dudley, T. H. Edmiston and S. R. Coate asked for a report upon the Mann Apartments, 119 North Olive, the Mann Apartments Annex, 123 West Olive, the Palace Rooming House, 123 North Los Angeles, and the Arden, 140½ West Center, all in Anaheim.

County Clerk Williams sent Deputy Sheriff Gunnett to Anaheim to secure the statements. Those statements are to be furnished, according to law, to the inspectors of the precincts concerned that they may be used as evidence in case of challenges.
